## Customer Reviews

I read this book with my 7-year old daughter after reading the A-Z mysteries Super Editions 1-4. These books are amazing/fantastic (says my daughter). I read these books with her as part of her elementary school reading marathon, and finished reading them all (1-5) in one week. All these books are very well written and kids remain interested till the end when the mystery is solved. There

are, as usual, multiple suspects and guessing the right one is always the best part of reading with the child. Strongly recommended for parents to read with their children.

i dont think i have read this one but from reading his other books im sure im gonna like it rons other books have been a pleasure to read and are very easy-going

We love all the A to Z mysteries! It's perfect for late elementary children!! My kids can't put them down! We now have them all!!

This book is so good I read it in one day because it is so good! Love You so much

I read a few pages of the book. But I think that it is easy that I read this English of the book and the story, too is interesting. I recommend Japanese who study English the book.

Great series. Kids love the characters and stories. Continuity in the characters, Easy reading about 5th grade level I would guess. Interesting stories that keep them interested.

This book was a great book. I liked it because it had action. I recommend this book for ages seven to one hundred and seven years old!

I love this book so much that you would think that I am in love with the book. Second grade is best for this book.
