Frightlopedia: An Encyclopedia Of Everything Scary, Creepy, And Spine-Chilling, From Arachnids To Zombies

Synopsis

Hereâ€™s the book for kids who love scary stuff, whether itâ€™s telling ghost stories around a campfire, discovering the origins of various vampires, monsters, and witches, or reading creepy tales under the covers with a flashlight. Combining fact, fiction, and hands-on activities, Frightlopedia is an illustrated A-Z collection of some of the worldâ€™s most frightening places, scariest stories, and gruesome creatures, both real and imagined. Discover Borneoâ€™s Gomantong Cave, where literally millions of bats, cockroaches, spiders, and rats coexistâ€™ in pitch darkness. Learn about mythical creatures like the Mongolian Death Wormâ€™ and scarily real ones like killer bees, which were accidentally created by scientists in the 1950s. Visit New Orleansâ€™ Beauregard-Keyes house, where Civil War soldiers are said to still clash in the front hall. Plus ghost stories from around the world, a cross-cultural study of vampires, and how to transform into a zombie with makeup. Each entry includes a â€œFright Meterâ€• measurement from 1 to 3, because while being scared is fun, everyone has their limit. Â
