## Customer Reviews

We ordered these cute books in the early elementary years to introduce the kids to the parts of speech and so on. The pages are full color and the artwork is awesome. The writing style is great for young kids. There is not much on each page so you can read through it in one sitting easily. My kids really grasped each concept with these books. They have been a great investment. Now, even in the older grades, it is great to pull one of these out as we continue to learn and review in Language Arts. These are well worth the money to have as an addition in your home library. You will use them again and again.

Our kiddo at 5 almost 6 ( wait, I mean, just 6.... ) is eating this up.

Great for my students.

Such a fun story! This was a great way to teach homophones and homonyms to second graders.

Just did NOT work for me, maybe if the age thing was associated, would have saved me.
