Customer Reviews

Bought this for my middle schooler. She has dyslexia and it has been a trial to find books that grab her attention enough to keep her interested. She read this entire season, culminating with this companion book to the series. Filled with Dragons, and mystery, and fantastical arrangements, she raved about this series.

I liked this book. Jay D'Lacey did an excellent job chronicling Chris's intentions and inspirations for

the Last Dragon Chronicles series. Very informative and entertaining. Great job and would definitely recommend it to every fan, new and veteran, out there. :)

Rain & Fire is an extraordinary book which offers insight into the whole Last Dragon Chronicles. I'd recommend this to any fan of the series and to those who would like to know a little more before committing themselves to it.

Totally awesome-was one of the greatest books I've read. It gave a complete layout of the books and much information.

was great. I would recommend it. Captures who the books came to be. Sorry to see the series end though.

There is too much backstop on the author, not enough details on what everything is. I.E. auma, the Ix, the events of The Fire Ascending. Something's we're even too confusing.

This product was for my grandson. I haven't given it to him yet. But he has read all of this series and loves them. The product came in perfect condition.

This explains the inspiration for the last dragon chronicles, and explains many topics that were not explained in Mich detail throughout the series.
