Oh, Baby, The Places You'll Go!

Synopsis

An introduction to the world of Dr. Seuss for babies and babies-to-be! Artfully adapted almost entirely from Ted Geisel's work, this introduction to the world of Dr. Seuss is a must for expectant parents and new babies! In simple rhymed verse, author Tish Rabe extolls the joys awaiting newborns when they meet the Cat in the Hat, Horton the Elephant, Yertle the Turtle, the Great Birthday Bird, the Grinch, and twenty-five other beloved Seuss characters. Written to be read aloud to babies and babies-to-be (yes, babies in utero!), the book includes a brief introduction by Mrs. Dr. Seuss Audrey Geisel revealing how she and Ted were fascinated by the idea that babies could hear sounds while still in the womb and might actually respond to the voices of their parents. A perfect gift for baby showers and newborns, Oh, Baby, the Places You'll Go! is the ideal way to nurture a love of reading and Dr. Seuss in the very youngest children!

Book Information

Lexile Measure: 0990 (What's this?)

Hardcover: 32 pages

Publisher: Random House Books for Young Readers (July 14, 2015)

Language: English

ISBN-10: 0553520571

ISBN-13: 978-0553520576

Grade Level: Kindergarten - 12

Customer Reviews

Length: 1:58 Mins

I created a video because I couldn't find a lot of photos or videos on it, and for some reason I knew this was a 'mini' book, but not as small as it actually was. You'll see in my video that this book is tiny

and has some features that are very different from normal Dr. Seuss books, but all in all, I still love it. It's got a few complicated words (even for some adults I'm sure), but it's fun to read over and over. Before you purchase it, you may want to see my short video so you know what you're getting. And if this review was helpful, please click on 'yes' below. Happy shopping!

I received this book with my first pregnancy and have since given it to every single pregnant friend I know (I buy several at a time and save on shipping.) It is funny, perfectly Dr. Seuss, and fun to read to your thumping belly. Best of all, it is small, colorful, and embodies all the joy and anticipation you feel as you wait on your baby. And because it is Seuss, your older children can read it to their sibling-to-be.

Of all the gifts my wife and I received for our first baby, this was undoubtedly the best. Not only did it give me, a first time father, the chance to bond with our son, it gave both of us a great deal to think about as well. Today, a year later, I can't even think about this book without a tear coming to my eyes. I highly recommend it for any parents-to-be, and it truly makes a gift that will last a lifetime.

I received this book as a gift from a coworker when I was about 4 months pregnant. I have read it almost daily to my unborn child and I love the feeling it gives me to read it and know that my child is listening! I am almost 6 months pregnant, and with the baby kicking me constantly, I am reminded that he wants to hear his favorite book! I love the creativity within this book, the emotions it brings while reading it, and the idea that my child is reading already! It isn't expensive nor does it take all day to read. Highly recommended!

My husband read this book to our baby in utero during my first pregnancy. When I was pregnant with my second child, we read the book as a family to the new baby. My toddler loves the book and loved reading it to her new baby. This book has become a bedtime favorite.

My mom and I were trying to find a few gifts to give my pregnant sister before she had her baby shower, and when I saw this book, I knew she'd love it. And I was right! She's been reading the book to her soon-to-be baby boy ever since. A real treat for any woman expecting who grew up with Dr. Seuss' books. Don't pass this one up!

So, someone took Oh the Places You'll Go, stripped it of its meaning, turned it into a

Small-World-esque tour of the most famous seuss books, and shrunk the book down to miniature (maybe 4"x3") size. It's pretty much a book telling your baby the names of all the characters in the Seuss books in a poorly put together piece of wannabe-Seuss prose. It's poorly written (not by Seuss) a piece of garbage. Do yourself a favor and buy your child an ACTUAL Dr Seuss book, not this awful thing.

They say we should start reading to baby before s/he's even born and this cute book is supposedly for doing just that. It's 1 or 2 paragraph snippets from various Dr. Seuss classics. The rhyming verses bounce along simply and you'll know it by heart after 10 reads. Mommy to be says she can sometimes feel the baby move as I read to her belly. A cute baby book.
