When Rocks Cry Out (English Edition)

Synopsis

The #1 Dallas Morning News regional nonfiction bestseller now throws open its earth shattering secrets for the entire world to see! Gripping from its opening page, WHEN ROCKS CRY OUT pulls you into a real-life deadly chase that uncovers the 'Forbidden Histories' of a 16th century friar who followed Columbus into the Americas. Uncovered ancient maps and writings show the real ruins of four of the Seven Ancient Wonders of the World that were thought to have vanished from the earth. The secrets hidden within those Wonders explode the very foundations of what we thought we knew about the world and where we had come from. Listed by the Dallas Community Colleges as a "must read," WHEN ROCKS CRY OUT ties together riddles from the Old Testament with ruins of abandoned cities that are thousands of years old and thousands of miles away from where we thought those cities would be. Often reading like a page-turning novel, this could be one of the most important books written in the last 500 years. From the discovery of Egypt's lost ancient capital, Memphis, to a stunning hidden burial city built by the Pharaohs, to the secret ruins of King David's famed city, this book moves past recent promises about 'codes' and brings you to the real-life secret that was the explosive reason for the creation of the codes. Da Vinci's Code? Solomon's Key? Those clever puzzles can't reach the significance of the mysteries unraveled in this book. And the things in this book are real! WHEN ROCKS CRY OUT is a book for those who have reached a point in their life when they just want to know the truth. Finally, we can trace where our "blood" has been and what our "blood" has done.

Book Information

Paperback: 202 pages

Publisher: Stone River Publishing; 2nd ed. edition (September 11, 2009)

Language: English

ISBN-10: 0615292658

ISBN-13: 978-0615292656

Product Dimensions: 5.5 x 0.5 x 8.5 inches

Shipping Weight: 8.8 ounces (View shipping rates and policies)

Average Customer Review: 4.7 out of 5 stars (See all reviews) (94 customer reviews)

Customer Reviews

I must say that when I first began to listen to Mr. Butler via blog talk radio shows I was excited. I was still not sure to accept it though because no one else that I know of is saying the exact same things. I finally bought "When Rocks Cry Out", and was amazed. I recommend this book for anyone, even if you are not 100% in agreement with all of Mr. Butler's conclusions. I support him and his work anyway. We need more African centered or African American scholars writing books and sharing their wisdom with us. Mr. Butler actually brings to you, from his 12 or more years of research, works that have been available for years. He brings a fresh new perspective via helping you understand that the bible and information about Egypt was redirected to make us think that it was referring to something and someone else. He has some ancient maps that unfortunately are not in the book but can be found with a little effort, such as the Waldseemuller Map, the Puttinger Map can help and others. The author starts from the standpoint of the Spanish Exploration of the Americas. The author then labors to show you that the biblical events took place in the Americas which is why much, if anything, has not been found in modern day Palestine. He shows us an article excerpt from Margreet Steiner entitled, "It's Not There", in regards to Jerusalem being in Palestine. She, along with scholars such as Thomas L. Thompson, Philip R. Davies, Niels Peter Lemche, and even Israel Finkelstein (to some extent), will help you understand that "Palestine" as we know it today, is not adding up to the archaeological record as we may have heard.
