Dictionary Of The Later New Testament & Its Developments (The IVP Bible Dictionary Series)

Synopsis

One of the 1998 Academy of Parish Clergy Top Ten Books of the Year! Voted one of Christianity Today's 1998 Books of the Year! 1998 ECPA Gold Medallion (Reference Works) The third of IVP's critically acclaimed series of dictionaries of the New Testament provides focused study on the often-neglected portions of the New Testament: Acts, Hebrews, the General Epistles and Revelation. Furthermore, its scope goes beyond the life of the New Testament church to include the work of the apostolic fathers and early Christianity up through the middle of the second century. The Dictionary of the Later New Testament & Its Developments offers a summa of New Testament studies. Designed to bring students, teachers, pastors and general readers up to date and up to speed, this one-of-a-kind reference volume presents more information than any other single work--dealing exclusively with the theology, literature, background and scholarship of the later New Testament and the apostolic church. In-depth, comprehensive articles focus on theological themes, methods of interpretation, background topics and various other subjects specifically related to the study of New Testament theology and literature. Expert contributors include Darrell Bock, George R. Beasley-Murray, I. Howard Marshall, Ben Witherington III and James D. G. Dunn. Wide-ranging articles range from the books of James and Jude to household codes, from the Roman emperor cult to gnosticism and docetism, questions of canon to second-century church leaders like Ignatius and Polycarp. The Dictionary of the Later New Testament & Its Developments takes its place alongside the Dictionary of Jesus and the Gospels and Dictionary of Paul and His Letters in presenting mature evangelical scholarship--committed to the authority of Scripture, utilizing the best of critical methods, and maintaining a dialogue with contemporary scholarship and the challenges facing the church.

Customer Reviews

This massive dictionary is one of the latest products of the emerging 'respectable academic evangelicalism'. It is respectable because it is decidedly moderate in its approach on many of the items discussed. While the more flexible evangelicalism exhibited here will win praise from the academic establishment, evangelical readers need to read this with discernment, since more than a few assertions made in here carry the same flaws as more liberal scholarship. The most obvious positive of this dictionary is its often exhaustive treatment of various subjects that too often get ignored in commentaries and Biblical studies courses. As is usually the case in reference works like this, the bibliographies contained in here are extremely helpful; often more helpful than the articles themselves. As such, it achieves its goal of providing the reader with the tools to conduct more thorough research on most any NT topic. Regardless of how questionable the articles themselves might be, this book is worthy of purchase on the basis of the bibliographies alone. Having said that, there are more than a few problems with the articles put forth here. Dunn's article on pseudepigraphy is creative in that he attempts to rescue 2 Peter from liberal critics while maintaining that it's pseudepigraphal. But it is nonetheless hopelessly flawed in its mistreatment of the early church's attitude toward pseudepigraphal writings so that not only will liberals reject his thesis, evangelicals should as well. In addition, the evangelical reader will likely be unpleasantly surprised by the degree to which the moderate evangelicals in this book discount the importance of apostolic authorship.
