## Frostborn (Thrones And Bones)

## Synopsis

Fantasy fans of Rick Riordan's Percy Jackson and John Flanagan's Ranger's Apprentice series will embrace this first novel in an adventure-filled, Viking-inspired series by a debut author. Meet Karn. He is destined to take over the family farm in Norrŕngard. His only problem? He'd rather be playing the board game Thrones and Bones. Enter Thianna. Half human, half frost giantess. She's too tall to blend in with other humans but too short to be taken seriously as a giant. When family intrigues force Karn and Thianna to flee into the wilderness, they have to keep their sense of humor and their wits about them. But survival can be challenging when you're being chased by a 1,500-year-old dragon, Helltoppr the undead warrior and his undead minions, an evil uncle, wyverns, and an assortment of trolls and giants. Readers will embark on a sweeping epic fantasy as they join Karn and Thianna on a voyage of discovery. Antics and hair-raising escapades abound in this fantasy adventure as the two forge a friendship and journey to unknown territory. Their plan: to save their families from harm. Debut novelist Lou Anders has created a rich world of over twenty-five countries inhabited by Karn, Thianna, and an array of fantastical creatures, as well as the Thrones and Bones board game. Praise for Frostborn: "Future fans of Tolkien and George R.R. Martin can happily cut their serial-fantasy teeth on this first book of an eventual series." -Kirkus Reviews "A fun, fast-paced, and highly enjoyable tale." -Garth Nix, bestselling author of the Abhorsen trilogy "...a powerful, fast-paced tale... The setting is rich, the characters well-defined, and the danger ever-paramount." -Publishers Weekly, starred "...an excellent choice for readers new to the genre. The themes of staying true to oneself, teamwork, and individuality will resonate with readers." -School Library Journal "...this accessible fantasy brings together two very different children bound by common goals." -Booklist "The most delightful fantasy I have read in ages. . . . Put me on the waiting list for book 2!" -Amy Plum, international bestselling author of the Die For Me series From the Hardcover edition.

## Book Information

Lexile Measure: 0660 (What's this?)

Series: Thrones and Bones (Book 1)

Library Binding: 336 pages

Publisher: Crown Books for Young Readers (August 5, 2014)

Age Range: 8 - 12 years

Grade Level: 3 - 7

## Customer Reviews

I think kids are going to love this. As someone who has never been interested enough in middle grade fantasy (fantasy for ages 8-12), I was really impressed with how much I liked this. Frostborn is a smart adventure story for fans of dragons, frost giants, dwarves, swordfights and strategy games. There is a fair amount of humor, one example coming from two-headed trolls that our young hero Karn must outsmart to survive. There are also funny draugs, Walking Dead soldiers who play a kind of dumb grave guard as they chase our heroes. Anders does a good job combining the lighthearted feel of this genre's fantasy adventure with high stakes conflict. His two main characters meet ghosts, dragons and more. They have to wield magic and smarts to escape fast-paced chase scenes and to save the lives of their family. The content of the battles is light enough for parents who may be afraid of gore in their children's reads, but for imaginative adults, the action is exciting and painful in the unspoken subtext. Frozen worms through a nose? Ouch, but the description isn't like you'd see in an adult movie. The effect worked perfectly for both audiences. On top of all this fun and adventure is a coming of age story for our two young children. The first, Karn, is only interested in playing his Thrones and Bones boardgame. His father will pass down the family farm when he dies, so it is important to him that he train Karn to succeed. He loves his son, and when they pass on into the afterlife, he wants to be able to move on with pride. We feel that desire of Karn for his father to be proud, but we also feel his wanting to not have to be stuck taking care of a farm when so much adventure and travel could be had.

\*I received a copy from the publisher for an honest review.\*In Frostborn, Lou Anders created a fictional world with a bit of mythology and fantasy figures. Think Lord of the Rings, but for a younger crowd. Our story begins with a typical boy who has no desire to take over his family's farm. He would

much rather be a kid and play his favorite game, Thrones and Bones. Each year, Karn's family travels to meet and trade with the frost giants. This year, Karn meets Thianna, a half-giant (half human, half giant). Since they're the only 2 "kids", they decide to hang out. While they're playing and talking, they develop kind of a friendship. I loved that Thianna took pride and was happy each time Karn called her big or tall. Since she was a half-giant, she wasn't near as tall as the giants and was often made fun of by some of the younger giants. When we get to the mystery involving a spirit and Karn's [evil] uncle, something bad happens. Karn is then on the run! When the giants get back to their home, there is a group of women hunting for Thianna. She, also, is then on the run! The two of them, fortunately, end up together while they're running and hiding. Once together, the two manage to get into trouble and run into creatures that no one wants to run into. However, since they were together, they were able to survive. If not together, they wouldn't have made it individually. Thianna had some frost magic and brute force, whereas Karn had brains and thinking skills. I really enjoyed that the two of them really relied on one another. They built a fantastic friendship, even though they were running for their lives.
