A friend gave me this hymnal as a gift. She also gave it to another friend, so that the three of us could use it to do specials with at church. I know many of the songs in this well done hymnal and have sung them in my private devotions. The large print is easy to read. I recommend it.

This book was filled with all the gospel music that we have heard for years. Loved having the music written in a larger font and chords clearly marked above the notes. Contained so many songs that I have searched for and been unable to find. Very pleased with everything contained within this book.

I have many (probably 10-12) of these Country and Western Gospel books and I love everyone of them. I can use them for church music or for just sitting and playing piano for hours. They are written for easy play and are 4-part harmony which I prefer.

I was really pleased with the selections included in the hymnal. The piano music is easy to play, but not too elementary. I have already received many hours of pleasure from it.

This is a great book for people who love to sing hymns. I bought a bunch of them so I could use them in the youth group at our church. We have a lot of fun singing them. Great book.

The booklet was fine. It was delivered quickly, and there were no major problems with it. I probably would have liked to have known before purchase that the pages are yellowed.

I am always looking for little supplemental hymnals for our choir or for my own enjoyment. This one is a nice addition to my collection.

I grew up with these books, and was pleased to find a large book that was the favorites. Highly recommend. Includes Chords as well.
