These Happy Golden Years (Little House Book 8)

Synopsis

The eighth book in Laura Ingalls Wilder's treasured Little House series, and the recipient of a Newbery Honor, now available as an ebook! This digital version features Garth Williams's classic illustrations, which appear in vibrant full color on a full-color device and in rich black-and-white on all other devices. Fifteen-year-old Laura lives apart from her family for the first time, teaching school in a claim shanty twelve miles from home. She is very homesick, but she knows that her earnings can help pay for her sister Mary's tuition at the college for the blind. Only one thing gets her through the lonely weeks—every weekend, Almanzo Wilder arrives at the school to take Laura home for a visit. Friendship soon turns to love for Laura and Almanzo. The nine Little House books are inspired by Laura's own childhood and have been cherished by generations of readers as both a unique glimpse into America's frontier history and as heartwarming, unforgettable stories. Customer Reviews

I read this series in my early teens. I enjoyed the latter books more because as Laura ages the language advances, so I found the earlier books (especially Little House) boring (but appreciated later). However, the latter books are still my favorite. I found Happy Golden Years sad because at the time I thought that was all I would ever know about Laura's life, that the rest would be a mystery, but I later found The First Four Years and then biographies as well as her own writings depicting events in her adult life (I especially like Little House in the Ozarks). But even though I now know that Laura went on to have a long and happy life (not without hardship), the Happy Golden Years is still sad. This series focused on this wonderful tight-knit family that experienced joy as well as heartache, and now the family is breaking up. It started when Mary left for college in Little Town on the Prairie. She is missed but when she returns for a visit there's the beginning of the realization for Laura that this life she's had, this family she loves, will change and she will eventually leave. It's something she is not comfortable with- it is hard for her to imagine doing anything other than remaining single and staying with her family, teaching school, but as the book progresses so does her realization of change, which becomes acceptance and hope. I love the writing style- it is simple and honest like the lives of the characters. I couldn't help but feel the joy that Laura felt to be at home with her family, the dread with which she faced her first teaching assignment. The warmth on the weekends contrasting with the chill away from home at that horrible teaching assignment.
